

How Do I Fix My Settings?

Unknown macro: {resetstatus}

Unknown macro: {workflow-include}

Adjust one or more of the following computer settings to allow DOE PAMS to run as effectively as possible:

- [Browser](#)
- [JavaScript](#)
- [Cookies](#)
- [Pop-up Blocker](#)
- [Date and Time](#)

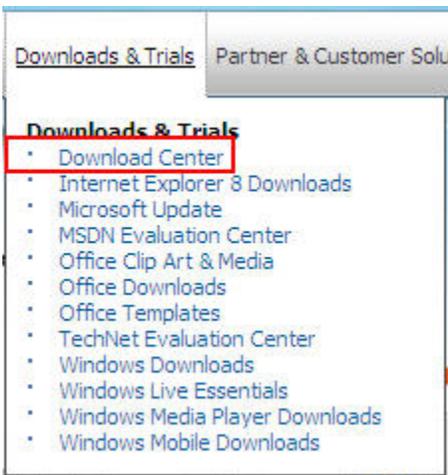

Can't Change Your System Settings?

If you are unable to change your system settings, you may not have the appropriate permissions. Contact your system administrator for assistance.

Browser

If your web browser is not Microsoft Internet Explorer Version 8 or above,

1. Navigate to the Microsoft website.
<http://www.microsoft.com/en/us/default.aspx>
2. Select **Download Center** from the Downloads and Trials menu.

3. Click **Internet Explorer 8** under Microsoft Technologies.

4. Follow the prompts to install Microsoft Internet Explorer 8.

[Top](#)

JavaScript

1. In Internet Explorer, click the **Tools** button, and then click **Internet Options**.
2. Click the **Advanced** tab.
3. In the Settings list, under Browsing, select **Disable Script Debugging (Internet Explorer)** and **Disable Script Debugging (Other)**, and then click OK.

Date and Time

To change your computer's time and time zone,

1. Open **Date and Time** in Control Panel.
2. On the **Date & Time** tab, select the item you want to change.
 - To change the hour, double-click the hour, and then click the arrows to increase or decrease the value.
 - To change the minutes, double-click the minutes, and then click the arrows to increase or decrease the value.
 - To change the seconds, double-click the seconds, and then click the arrows to increase or decrease the value.
 - To change the AM/PM indicator, select it, and then click the arrows.
3. To change your time zone, click the Time Zone tab. In the box above the map, click the drop-down arrow, and then click your current time zone.
